Objective

Full Stack Developer specializing in AI integrated, REST API driven applications with Spring Boot and OpenAI's API.Combines backend engineering expertise with a security conscious mindset, delivering clean, well structured code that delivers reliable, real world solutions.

Education

B.E. Computer Science and Engineering (CGPA : 8.15) 2024 – 2028
Dr. N.G.P Institute of Technology, Coimbatore, Tamil Nadu

HSC - 82% 2023 – 2024
Srivi Lions Matric Higher Secondary School , Srivilliputhur

SSLC - 70% 2020 – 2021
Srivi Lions Matric Higher Secondary School , Srivilliputhur

Technical Skills

- **Programming Languages:** Java , Python , C , JavaScript
- **Tech Stack:** HTML , CSS , JS , Spring Boot , RESTful APIs , MySQL
- **Core Concepts:** OOP , OS , DBMS , CN
- **Tools & Platforms:** Git , Github , Postman , IntelliJ IDE , VS Code

Projects

Student Management System Full Stack Project

- Developed a project using Java Spring Boot, HTML, CSS, and MySQL with full CRUD functionality.
- Implemented CRUD operations to add, view, and delete student records efficiently.
- Used Spring Boot to handle backend logic and connect with the database.
- Designed a user-friendly interface for efficient student record management and monitoring.

Tech Stack : HTML, CSS, JS, SPRINGBOOT

AI Chatbot AI Full Stack Project

- Developed an AI chatbot application to understand user queries and generate intelligent responses.
- Integrated modern AI APIs with backend services for seamless communication.
- Implemented dynamic conversation handling to improve user interaction.
- Designed the application for efficient and responsive AI-based query processing.

Tech Stack : Open AI API, HTML, CSS, JS, SPRINGBOOT

Internship Experience

Internship Ether Infotech

Gained practical knowledge in Cyber Security fundamentals and security practices. Worked with tools such as Nmap, Port Scanning, and Wireshark for network analysis and monitoring.

Certifications

- **CISCO** – Networking Basics.
- **Python** – Learned Python programming fundamentals.

Participations

- **Workshop** – Participated in a Cyber Security Workshop focused on security concepts and threat awareness.
- **Paper Presentation** – Presented a paper at the CSE Paper Presentation event conducted by KPRIET
- **Hackathon** – Developed CrimeGPT, an AI powered conversational crime analytics platform, at Datathon 2026

Area of Interest

- Computer Networks
- Cyber Security
- Database Design
- Artificial Intelligence
- Linux System Administration
- Operating Systems Fundamentals
- Penetration Testing
